TIMETABLE FOR ONE-DAY SESSION
WRITING FOR PUBLICATION
Trainer: Elisabeth Heseltine

The purpose of the session is to help PhD students to publish their results in English-language journals. Students who have a good command of English are helped to structure their papers into a logical order so that the reader will be led through the arguments and thus understand the relevance of the results. If time permits, elements of style and publication process will be discussed. The session will be illustrated and discussed in relation to a paper that one of the participants will have submitted for use as an example.

6 June 2012
09:00-10:30 General introduction, title, authors, abstract and keywords
