

**Department of Electrical Power Engineering  
Tallinn University of Technology  
DOCTORAL SCHOOL OF ENERGY- AND GEOTECHNOLOGY II**

**INTENSIVE COURSE  
" HIGH VOLTAGE TESTING AND  
MEASUREMENT TECHNIQUES "**

**Lecturer: Professor Dr. Petri Hyvönen from TUT**

**Venue: Ehitajate tee 5, VII-417**

**Time: November 21-22, 2012**

**TOPICS AND TIMELINE**

**Course will cover following items:**

- Fundamentals of high voltage testing
- High voltage sources and test connections (AC, DC, impulses)
- High voltage measuring systems (AC, DC, impulses, PD)
- Practical test examples

**Course schedule including coffee and lunch break:**

Wednesday, November 21, 2012 at 14.00 – 17.00

Thursday, November 22, 2012 at 10.00 – 17.00

Course is given in English. Questions can be asked in English, Finnish or Estonian.

**Registration:** Registration deadline **19.11.2012**.
